

Neutral Disconnectable Bases

The disconnectable neutral bases from Ferraz Shawmut are used in low voltage distribution systems.

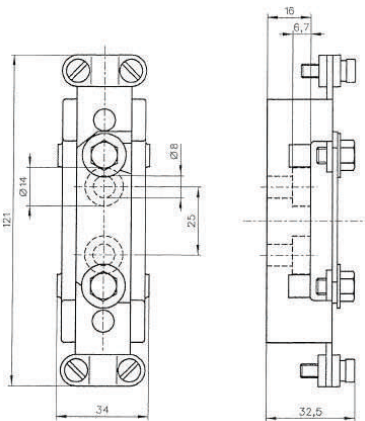

They participate in increasing the safety of electrical workers in the field by disconnecting the neutral line when needed.

They can be mounted on a panel besides a 3-pole fuse disconnecter or a 3-pole fuse base.

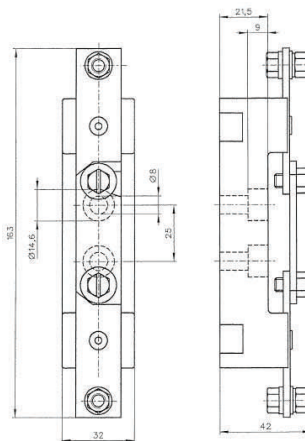

Catalog Number	Reference Number	DIN-Size	Type of connection	Current rating (A)	Packaging	Dimensions (mm)
